The Valley of Rocks, Lynton. This valley lies to the west of Lynton, about a mile from the town. It is a green rough-sided hollow, bending at the middle, touched with stone at either crest, and dotted here and there with slabs in and out the brambles. On the right hand is an upward crag called by some the "Castle." Facing this, a queer old pile of rock arises, called the "Devil's Cheese-ring."—Blackmore's "Lorna Doone."
